

Why should Swedish companies and organizations invest in biodiversity? How do companies measure their biodiversity footprint and what are the solutions?

The World Forest Forum invites you to a hybrid event with a focus on biodiversity. Selected participants will meet in person in Granö in northern Sweden. The program includes international speakers, workshops and forest excursion where solutions to biodiversity crisis are discussed.

PROGRAM WEDNESDAY MAY 31

At 10.30	Welcome
At 10.40	Keynote speaker 1 Speakers with international experience of cooperation at a global level regarding standards for ecosystem services.
At 11.10	Keynote speaker 2 Speakers from a global actor from the industrial or financial market representing potential buyers of biocredits. Focus on the buyer's perspective.
At 11.40	Aleksandra Holmlund presents the insights from the research project regarding her research project on biodiversity financing.
At 12.00	Panel on insights from keynote presentations. The conversation is led by Professor Tomas Lundmark .
At 12.30	LUNCH
At 13:00	Swedish Biocredit Alliance, kickoff and feedback from WFF 2022 - what has happened since previous Granö meeting?
At 13.30	Portfolio of investable projects in Sweden.
